

# ACKNOWLEDGEMENTS

---

Without any doubt, first and foremost, I am very thankful to almighty ‘**ALLAH**’, the most beneficial and merciful, without his blessing nothing can be done. This thesis is very exciting and challenging for me and I have been accompanied by a number of people whose contributions are worth to be mentioned.

I am very much indebted to my mentor and supervisor **Prof. Vipin Saxena**, Dean, School for Information Science and Technology, Department of Computer Science, Babasaheb Bhimrao Ambedkar University, Lucknow for their continuous support and encouragement throughout this research work and finally giving Midas touch to my thesis. His vast experience in software engineering research proved very fruitful to me. I can never repay for all that I have learned from him.

I wish my thank to Prof. S. K. Diwedi, Head, Department of Computer Science and faculty members Dr. Deepa Raj, Dr. Narendra Kumar, Dr. Manoj Kumar, Department of Computer Science, Babasaheb Bhimrao Ambedkar University for their support and providing me all the necessary facilities for my research work.

I would like to thank my fellow research scholars which are more than just a colleague to me.

It will be injustice if will not remember my dear friends during my stay at Babasaheb Bhimrao Ambedkar University, I feel blessed when count few name among them Kamlesh Kumar Verma, Pallab Kumar Das and Kushagra Saxena.

Apart from the above, I would like to extend my gratitude to my parents, sisters and sister in law. I would like to dedicate my thesis to my sister (late) without her support this journey was not possible for me. They always stood my side and always prayed for my success. I owe all of them very much without their support and encouragement this journey was not possible.
